New, Early ENGLISH CHRYSANTHEMUMS

This new race of 'mums, originated in England, has only recently been offered in the United States for the first time, and have been found far superior to the old types of 'mums. They are equal in hardiness, and are all early disbudded, but if you disbud down to 8 to 12 buds, especially large flowers are produced.

ALABASTER. A very early white, of large size and good substance. This gleaming beauty is slightly incurved, and unusually lovely. . . . \$0.50 1.40

BRONZE EARLY BUTTERCUP. One of the very finest early flowering chrysanthemums ever raised. Of deep bronze, with incurving petals, golden buff on the reverse side. You will be sure to like this one, and may wish to disbud the plant somewhat, as it sets far too many buds. . . . 50 1.40

ELITE. A lovely soft rose-pink, with the petals tipped gold, and the breath-takingly gorgeous flower gold at the center. Good grown either in clusters, or disbudded. . . . 50 1.40

GOLD STANDARD. Very bright yellow blooms, incurved petals, carried on stiff stems. A fine yellow, extra good, when disbudded. . . . 50 1.40

LEDA. Beautifully rolled petals of heliotrope-pink, on fine, stiff stems. Produces flowers six or more inches across if the plant is disbudded some. . . . \$0.50 1.40

MRS. PATTIE. The very earliest variety of these new English 'mums, really a summer bloomer, with flowers of terra-cotta with gold reverse, with broad, incurving petals. . . . 50 1.40

ROSE PRINCESS. Salmon-rose, with a basal flush of gold, this grand variety has stiff stems, and makes a tall plant. . . . 50 1.40

REVELLER. An exceptionally showy variety of bright Indian-red, with stout stems, and a heavy bloomer. . . . 50 1.40

TIGER. This unusual flower opens bright crimson, then changes to bronze, and finally to bright yellow, with all shades of the flowers in perfectly good condition at one time, giving the plant a unique and striking appearance. Flowers are good sized even without disbudding, and make grand cut flowers. . . . 50 1.40

UNA. These beautiful flowers of pink, with silvery reverse on the petals, is slightly incurved. Blooms a little later than some varieties. . . . 50 1.40

Exquisite IRIS KAEMPFERI

These enormous iris, carried on tall, straight stems, make a splendid background for a pool where their reflected beauty doubles the enjoyment derived from them. Or plant them in groups or masses in the border, where their gorgeous colors are unrivalled! Perfect for cutting, the ancient poets called these iris "Ground Rainbows." Average height 3 to 5 feet.

Culture: Plant in spring or fall. Protect late fall plantings with a light covering of straw or leaves, after the ground is permanently frozen, to prevent heaving. A heavy application of fertilizer is beneficial, and either fresh or dried manure may be used. Once established they flower profusely year after year.
